

## Počtení operace s přirozenými čísly do 20.

1. Vypočítej podle vzoru:  $(8 + 5) - 7 = 13 - 7 = 6$

$$(3 + 8) - 4 = \underline{\hspace{2cm}}$$

$$(15 - 9) + 7 = \underline{\hspace{2cm}}$$

$$(6 + 6) - 3 = \underline{\hspace{2cm}}$$

$$(12 - 8) + 9 = \underline{\hspace{2cm}}$$

$$(13 + 3) - 8 = \underline{\hspace{2cm}}$$

$$(20 - 6) - 7 = \underline{\hspace{2cm}}$$

$$(17 - 9) + 4 = \underline{\hspace{2cm}}$$

$$(6 + 8) + 4 = \underline{\hspace{2cm}}$$

$$(11 - 6) + 9 = \underline{\hspace{2cm}}$$

$$(7 + 8) - 5 = \underline{\hspace{2cm}}$$

2. Vypočítej podle vzoru:  $18 - (3 + 6) = 18 - 9 = 9$

$$15 - (4 + 4) = \underline{\hspace{2cm}}$$

$$8 + (12 - 6) = \underline{\hspace{2cm}}$$

$$7 + (15 - 8) = \underline{\hspace{2cm}}$$

$$5 + (16 - 8) = \underline{\hspace{2cm}}$$

$$20 - (15 - 6) = \underline{\hspace{2cm}}$$

$$12 - (11 - 2) = \underline{\hspace{2cm}}$$

$$8 + (12 - 7) = \underline{\hspace{2cm}}$$

$$11 - (5 + 6) = \underline{\hspace{2cm}}$$

$$3 + (9 + 8) = \underline{\hspace{2cm}}$$

$$19 - (13 - 5) = \underline{\hspace{2cm}}$$

3. Zapiš 6 čísel, která jsou menší než číslo 15.
